

COACH GROWTH STUDIO

One hour of your time. A month of your content.

You already know what to say to your clients. Growth Studio captures it once — then turns that single recorded interview into **10 to 20 finished pieces** you can post all month, or put ad spend behind.

Nothing to script. Nothing to ghostwrite. It is already you.

60% of a coach's time goes to non-coaching work. This gives the content hours back.

109K+ certified coaches competing for visibility. Consistency is the separator.

HOW IT WORKS

01

The Interview

Sixty minutes on camera with our team. We ask the questions that surface your thinking. You do what you already do best — talk about your work.

02

The Edit

Our editors mine the session for its strongest moments and cut them into short-form pieces — hook first, captioned, and formatted for every platform.

03

The Month

Your content arrives ready to publish on LinkedIn, Instagram, YouTube Shorts and TikTok — or to run as paid advertising for your practice.

WHAT YOU RECEIVE

- 10–20 short-form video pieces cut from your single session
- Vertical and square cuts for every major platform
- Ad-ready versions you can put budget behind immediately
- Burned-in captions built for sound-off scrolling
- A written hook and caption supplied with each piece
- The full source recording, yours to keep and reuse

THE THREE THINGS COACHES ASK FIRST

“I don't have the time.”

One hour, once. Everything after the interview — cutting, captioning, formatting — is handled for you.

“I freeze on camera.”

It is a conversation, not a performance. We ask, you answer. Only our editors see the raw session.

“I never know what to post.”

You will have a month of content queued before the month starts, drawn entirely from your own thinking.
